

# Round Up S10

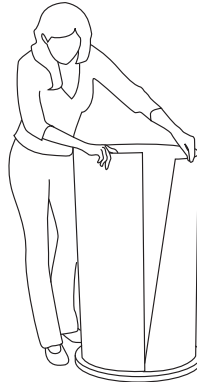

Width (panel/wrap):	159 cm + place for Velcro/magnet
Height (panel/wrap):	< 150 cm
Assembly:	Velcro or magnet tape

## Assembly instruction

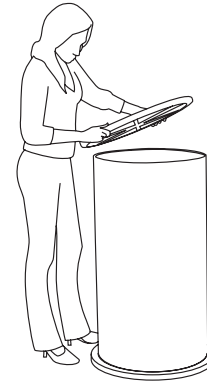

- 1** Attach wrap to Bottom Plate with pre-installed magnetic tape.

- 2** Connect wrap vertically with pre-installed Velcro tape.

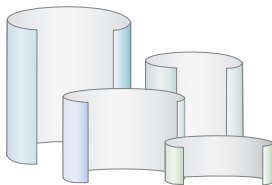

- 3** Position Top Plate, secured with pre-installed magnetic tape.

## Parts:

### WRAP

Magnetic tape on top & bottom horizontal edges, and Velcro tape on vertical edges.

### BOTTOM PLATE

Connecting ring on top side with magnetic tape.

### MIDDLE PLATE

Connecting ring on both sides with magnetic tape.

### TOP PLATE

Connecting ring underneath with magnetic tape.

## Set up combinations:

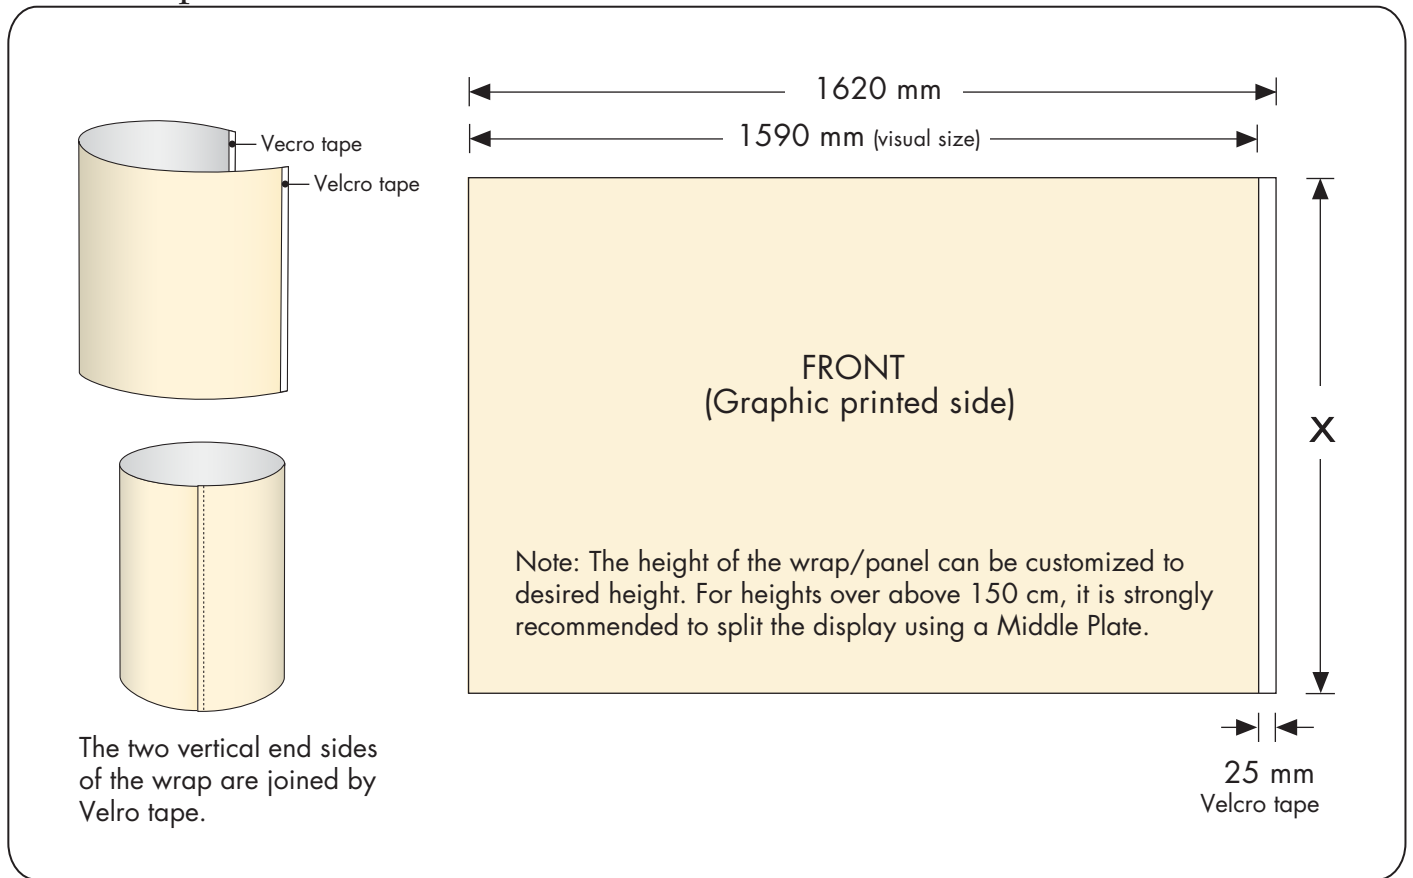

### SINGLE or STACKED

You can create your own displays by combining wraps and plates. With the help of Middle Plates you can change the set up configuration or just add on when the need arises.

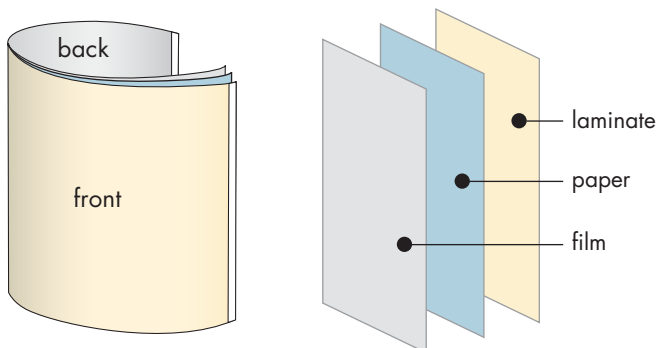

# Round Up S10

## The Wrap

## Materials:

The wrap panel medium will be determined by the height of the wrap and the weight load of the products showcased on the Top Plate. Suggested print medium are: front and back laminated paper, PVC, or other curvable substracts. Minimum recommended thickness is 20 mil.
